

YFS Argonaut Flexible Fund

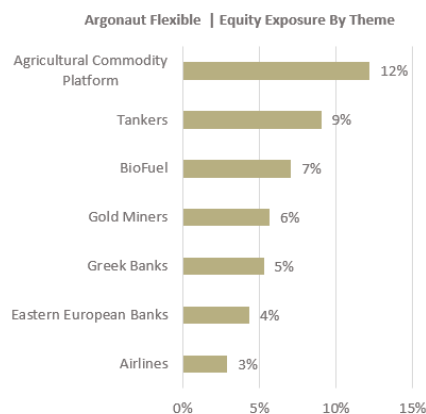

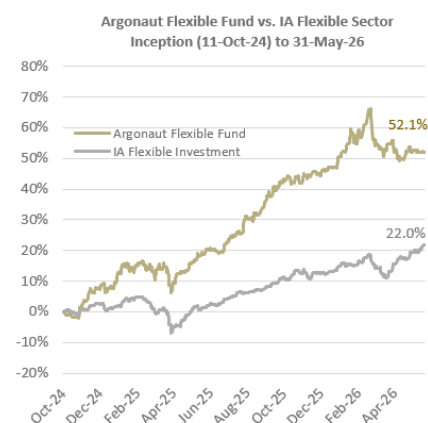

- Differentiated long only total return strategy.
- ‘Hedge-fund long book’ with non-equity exposure to reduce volatility.
- Typically, 50-80% equity exposure via 30-50 equity positions.
- No leverage, no short book, highly liquid.
- Global scope, best ideas portfolio, style agnostic.
- Fundamental, bottom-up total return strategy with proven, repeatable investment process & disciplined risk framework.
- Argonaut Flexible Fund (AFF) a long-only equivalent of multi-award-winning L/S strategy Argonaut Absolute Return.
- AFF +52.1% net of fees vs. MSCI World +29.2% since 11-Oct-24 inception on Sharpe ratio of 2.1 and correlation of 0.1 to global equities.
- Non-equity exposure has reduced volatility, enhancing risk-adjusted returns.

Investment Philosophy

Below are eight key tenets of Argonaut Capital’s investment philosophy. The full list is available [here](#).

Conviction: Where we find attractive risk-reward we invest with conviction albeit we always look to avoid anchoring. We seek to have strong convictions loosely held: if we feel the facts have changed, we will change our positioning.

Absolute Returns: We think in absolute rather than relative terms, we manage money without reference to benchmarks and we seek to make positive returns in all environments.

Alignment: ‘Show me the incentive, I’ll show you the outcome’. We are heavily invested in our own strategies.

Stock prices: Over the medium to long term it is corporate earnings that move share prices.

Stock selection vs. Portfolio construction: Analysing companies is one skill set; creating a portfolio that reflects positive outcomes is a different skill set. We prioritise both.

Risk management: Risk management is the critical part of any investment process. Avoiding large drawdowns is key to successful long-term compounding. We often find rejecting investments is more important than selecting investments.

Flexibility: It’s not the strongest, nor the most intelligent that survives, but the one that is most adaptable to change. We believe the optimal investment strategy should be unconstrained and adaptable and not beholden to factor, style or commercial considerations.

Keep learning: Mistakes and errors are part of life and represent opportunities to learn. To get good at chess it is better to spend time reflecting on the games one has lost. Our investment process is a product of 25 years of learning, refinements and occasional mistakes. We are always looking to get better.

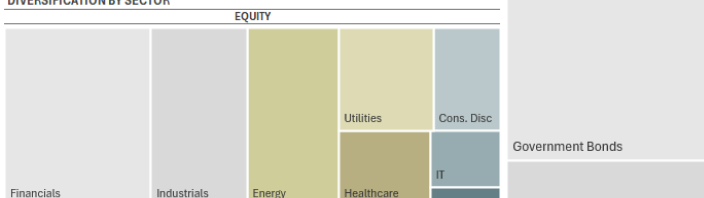

INVESTMENT PROCESS & PORTFOLIO CONSTRUCTION

- Conviction global total return portfolio with dynamic asset allocation to selected non-equity exposure with the aim of reducing volatility.
- Actively managed, fundamental investment approach combining bottom-up proprietary equity analysis with macro awareness.
- Concentrated portfolio – typically 30-50 long equity positions.
- Example portfolio below – multi-factor exposure to reduce style risk:

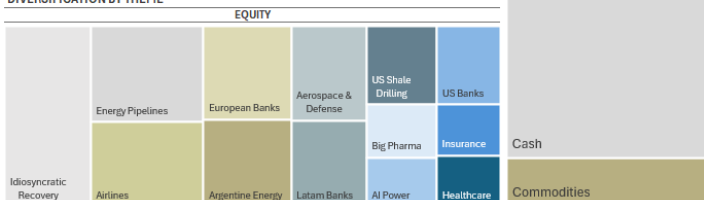

DIVERSIFICATION BY GEOGRAPHY

DIVERSIFICATION BY SECTOR

DIVERSIFICATION BY THEME

Portfolio outlined above uses the YFS Argonaut Flexible Fund portfolio as at 31-Dec-24 and is presented here for illustrative purposes only.

PERFORMANCE ANALYSIS

- In the 19 months since 11-Oct-24 launch AFF (+52.1%) has materially outperformed the IA Flexible Sector (+22.0%) and MSCI World (+29.2%).
- AFF's **non-equity exposure has reduced overall volatility**, enhancing risk-adjusted returns.
- The table below also includes the *Equity Only* portion of the AFF:

Argonaut Flexible Fund (AFF) | Inception (11-Oct-24) to 31-May-26

	Return	Std Dev.	Corr.	Sharpe	Max Drawdown	Up Capture	Down capture
AFF	52.1	11.0	0.1	2.1	-10.3	27.5	-5.5
AFF Equity Only	53.7	17.1	0.1	1.6	-18.2	32.5	-0.1
IA Flexible Sector	22.0	6.4	0.4	1.1	-11.2	26.7	14.5
MSCI World TR (Net)	29.2	13.6	1.0	1.2	-18.2	100.0	100.0

- **Lower volatility:** AFF has considerably lower volatility (11.0%) vs. the *AFF Equity Only* fund (17.1%) as well as the MSCI World Index (13.6%).
- **Shallower drawdown:** AFF's maximum drawdown (-10.3%) is almost half that of the MSCI World Index (-18.2%), demonstrating how its dynamic asset allocation can help reduce downside risk.
- Down capture of -5.5% shows **strong downside protection**.
- **Low correlation** (0.1) vs the MSCI World highlights diversification benefits.
- Despite low market beta, AFF has still generated **healthy alpha**, demonstrating strong stock-picking.

IMPORTANT INFORMATION

This is a marketing communication from Argonaut Capital Partners LLP which is not intended to be viewed as a piece of independent investment research.

FUND OVERVIEW

Objective: The YFS Argonaut Flexible Fund ('The Fund') aims to provide capital appreciation over the long term by holding a concentrated portfolio of equities whilst lowering the overall risk of the portfolio and enhancing returns through a selection of non-equity investments. The fund is not managed against any formal benchmark. Capital is at risk and there is no guarantee that a positive return will be delivered over any given time period.

Investment Approach: The fund deploys a long-only total return strategy focused on mainly Developed market equities and is dedicated to seeking absolute returns via an active, fundamental investment approach and a concentrated portfolio of investments. The fund typically holds 30-50 long equity positions alongside a mix of non-equity investments.

Risk Considerations: The Fund has considerable latitude over its equity and non-equity allocation and may also hold a large weighting in a small number of investments and may therefore be subject to larger than normal swings in its value. The performance stream is likely to be volatile and the Fund is suitable only for investors who have a long-time horizon (>5 years) and can tolerate high risk. Investors may not get back all the money invested and an investment in this Fund should only form part of an investor's total portfolio. Investors should discuss the suitability of this Fund with their professional adviser.

IMPORTANT INFORMATION

This is a marketing communication and it is not intended to be viewed as a piece of independent investment research.

Argonaut Capital Partners LLP has approved this communication which is for private circulation only, and in the UK is directed to persons who are professional clients or eligible counterparties for the purposes of the Conduct of Business Sourcebook of the Financial Conduct Authority of the United Kingdom (the "FCA") and it is not intended for and must not be distributed to retail clients.

It does not constitute an offer to sell or an invitation to buy or invest in any of the securities or funds mentioned herein and it does not constitute any personal recommendation or investment taxation or any other advice. The tax treatment of an investment in any of the securities or funds mentioned herein depends on the individual circumstances of each investor and may be subject to change in the future. The information and any opinions have been obtained from or are based on sources believed to be reliable, but accuracy cannot be guaranteed. The capital you invest is at risk and you may lose some or all the money you invest. Past performance does not guarantee future results and the value of all investments and the income derived from them can decrease as well as increase.

Don't invest unless you're prepared to lose all the money you invested. This is a high-risk investment and you are unlikely to be protected if something goes wrong. [Take 2 mins to learn more](#)

Investments that have an exposure to currencies other than the base currency of the Fund may be subject to exchange rate fluctuations. This communication and the information contained therein is a financial promotion for the purposes of the Financial Services and Markets Act 2000 of the United Kingdom and the rules of the FCA. The distribution of this communication may, in some countries, be restricted by law or regulation. Accordingly, anyone who comes into possession of this communication should inform themselves of and observe these restrictions. Argonaut Capital Partners is not liable for a breach of such restrictions or for any losses relating to the accuracy, completeness or use of information in this communication, including any consequential loss.

Please always refer where appropriate to the relevant Fund prospectus and relevant key investor information document(s) before you invest. The Fund's prospectus and key investor information documents are available in English and may be obtained at argonautcapital.co.uk.

The fund takes long equity positions based on the fund manager's views of the market direction whilst lowering the overall risk of the portfolio and enhancing returns through a selection of non-equity investments. This means the fund's performance is unlikely to track the performance of broader equity markets. While this creates the opportunity for the fund to deliver positive returns in falling markets, it also means the fund could deliver negative returns in rising markets. The use of independent ratings is not a recommendation to buy and is not a guide to future returns. This Fund is marketed to professional investors and eligible counterparties. Retail investors should seek further advice before investing. Valu-Trac Investment Management Limited is the Authorised Corporate Director (ACD) of Argonaut Funds and is authorised and regulated by the Financial Conduct Authority. Registered office: Level 13, Broadgate Tower, 20 Primrose Street, London, EC2A 2EW.

Investors should refer to the Key Investor Information Document (KIID) and Supplementary Information Document (SID) before investing.
